

Christie J Purackal

Computer vision engineer

Email.:cjpurackal@gmail.com

Web.:http://cjpurackal.com

Links

Github:// [cjpurackal](#)
LinkedIn:// [cjpurackal](#)

Skills

OS

GNU/Linux

LANGUAGES

C/C++, Python

FRAMEWORK

pytorch, libtorch, tensorflow, cuda, ROS

OTHERS

Markdown, Git, Vim,

Sublime Text, AWS, GCP, Kubernetes, Docker

Education

2013-2017

B.TECH. IN IT

Cochin University of Science and
Technology

Experience

2019-NOW **SIW, Malaysia** **Consultant, Computer Vision | SLAM**

RnD on:

- * Dense visual SLAM systems
- * Visual Inertial Odometry
- * Object detection/segmentation
- * Unsupervised object categorization
- * Visual attention

ROS, pyTorch, Pangolin, C++, cmake, Tensorrt, CUDA, Ignition gazebo

2018-2019 **Agrima (BigBasket), Kochi** **Software Engineer(Team Lead)**

- * Lead a team to build and ship inference APIs for recipe prediction(via food detection).
- * Worked on various ML models for classification, detection and segmentation.
- * Built data pipeline (labeling to inference APIs), internal framework for managing ML training and serving jobs.

Keras, TensorFlow, docker, Kubernetes, Amazon Web Services (AWS), Google Cloud Platform (GCP), MLOps

2017-2018 **Lithion Power, Delhi** **Software engineer**

- * Implemented lane detection, road segmentation and vehicle detection algorithms for autonomous car project.
- * Developed driver monitoring system to alert the driver for possible distraction or drowsiness.
- * Responsible for data pipeline and administration.

Autonomous Vehicles, TensorFlow, Flask, MEAN stack

Open source Projects

Kornia **Collaborator**

- * Contributed lie groups API (So3, Se3, So2, Se2)
- * Quaternion improvements
- * Currently working on Visual odometry module for Kornia

nice-slam

A cpp/libtorch implementation of Neural Implicit Scalable Encoding for SLAM

m2det

Tensorflow 2.0 implementation of m2det object detection

Achievements/Awards

2022 **OpenCV Spatial AI Competition** **Top 25**

Selected as one of top 25 competitors for the opencv spatial ai track competition (Depth estimation on OAK-D Pro)

2016 **ICTAK Techathlon** **Runner-Up**

State level technical competition

2013 **College level coding competitions**

Several Coding competitions held in engineering colleges in Kerala.
